Solid State Devices is AS9100C and ISO 9001 Registered.

This catalog indicates SSDI part numbers that are recommended as replacements for industry part numbers. Our recommended replacement may or may not have the exact same electrical ratings as the industry part number. Complete specifications for the individual devices are provided in the form of data sheets from our website: [www.ssd-power.com](http://www.ssd-power.com). Please refer to our data sheet or consult the factory for more information.

The information in this book has been carefully checked and is believed to be accurate; however, no responsibility is assumed for errors or omissions.

Solid State Devices, Inc. reserves the right to make changes without further notice to any product herein. Solid State Devices, Inc. does not assume liability arising out of the application or use of any product or circuit described herein; neither does it convey any license under its patent rights nor the rights of others.

Solid State Devices, Inc. and are registered trademarks of Solid State Devices, Inc. Solid State Devices, Inc. is an Equal Opportunity/Affirmative Action Employer.

**Warnings**

Due to technical requirements, components may contain dangerous substances. For information on the types in question, please contact SSDI.

SSDI components may only be used in life-support devices or systems with the express written approval of SSDI. Failure of such components can reasonably be expected to cause the failure of that life-support device or system, or to affect the safety or effectiveness of that device or system. Life-support devices or systems are intentionally implanted in the human body to support and/or maintain and/or protect human life. If they fail, it is reasonable to assume that the health of the user or other persons may be endangered.
